

HARIS SHAHNAWAZ

MERN Stack Developer | Full Stack Web Developer

Lahore, Pakistan | harishahnawaz97@gmail.com | +92 313 1435116

portfolio-haris.vercel.app | github.com/HarisShahnawaz | linkedin.com/in/harishshahnawaz

PROFESSIONAL SUMMARY

Result-driven MERN Stack Developer with **2+ years of hands-on experience** building scalable, production-ready full-stack web applications. Skilled in RESTful API development, AI/LLM API integration, and real-time features with Socket.io. Experienced across the full SDLC — from UI design (React) to cloud deployment (Vercel, Cloudflare). Track record of **3+ client deliveries** on Fiverr and Upwork with strong ratings. Actively seeking a full-time MERN Stack developer role.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST API Development
Database	MongoDB, Mongoose ODM
Tools	Git, GitHub, VS Code, Vite, Postman, MongoDB Atlas, Vercel, Cloudflare Pages
Currently Learning	TypeScript, Next.js, Docker

WORK EXPERIENCE

Freelance MERN Stack Developer | *Fiverr & Direct Clients — Remote* Jan 2023 – Present

- Designed, developed, and deployed **3+ full-stack MERN applications** for international clients, meeting 100% of agreed deadlines.
- Architected RESTful APIs with Express.js, integrating React frontends with MongoDB using Mongoose ODM for clean schema design.
- Developed **HMA-Store**, a production-grade full-stack e-commerce platform featuring JWT-based authentication, a comprehensive product catalog, dynamic shopping cart, structured order management system, and an integrated AI assistant.
- Built **HarixAI**, a production-grade AI chat app by integrating Groq LLaMA 3.3 70B — demonstrating real-world LLM API experience.
- Implemented **real-time messaging** with Socket.io including user authentication and bidirectional event-driven communication.
- Maintained version-controlled codebases with Git/GitHub; applied component-based React architecture for maintainable, reusable UIs.
- Gathered requirements from clients, delivered iterative builds, and incorporated feedback — earning repeat business and strong Fiverr ratings.

KEY PROJECTS

HMA-Store — Production-Grade E-Commerce Platform 2024 Stack:
React.js, Node.js, Express.js, MongoDB, JWT Auth, Gemini API

- Developed a full-stack e-commerce platform featuring secure JWT-based authentication, a comprehensive product catalog, a dynamic shopping cart, a structured order management system, and an integrated AI assistant.

HarixAI — AI-Powered Chat Application 2024 Stack:
React.js, Node.js, Express.js, MongoDB, Groq LLaMA 3.3 70B

- Built a production-grade AI chat application by integrating the Groq LLaMA 3.3 70B model, demonstrating real-world LLM API experience, optimized backend handling, and a responsive React UI.

Real-Time Chat Application 2023 Stack:
Node.js, Express.js, Socket.io, MongoDB, React.js

- Bidirectional real-time messaging via Socket.io with secure auth and persistent MongoDB storage; clean React frontend.

TripZee — Travel Platform 2023 Stack:
React.js, REST API Integration, Cloudflare Pages

- Dynamic travel discovery UI with third-party API integration and responsive design; deployed on Cloudflare Pages.

Fit-Club — Fitness Web Application 2023 Stack:
React.js, Tailwind CSS, REST API

- Modern fitness platform with fully responsive Tailwind UI and a third-party exercise API for categorised workout data.

EDUCATION

BS Information Technology — Result-Awaited 2022 – 2026
University of Okara CGPA: 3.62 / 4.00

Focus: Software Development & Database Management

Intermediate in Computer Sciences (HSSC) 2020 – 2021
Aligarh College, Lahore

ACHIEVEMENTS & ADDITIONAL INFORMATION

- **Freelance Track Record:** Successfully delivered multiple full-stack client projects on time with strong ratings and documented repeat business.
- **AI Integration:** Hands-on experience integrating production-level LLM APIs (such as Groq LLaMA and Gemini) into deployed web applications.
- **End-to-End Ownership:** Independently managed the entire product lifecycle including UI design (Figma), development, API testing (Postman), and deployment (Vercel/Cloudflare).
- **Continuous Learning:** Actively upskilling in TypeScript, Next.js, and Docker to align development practices with enterprise-level engineering standards.
